

<p>PERSONAL DATA</p> <p>Name: Réka Eszter ASZALÓS</p> <p>Address: Institute of Ecology and Botany, Centre for Ecological Research, H-2163 Vácrátót, Alkotmány u. 2-4, Hungary</p> <p>E-mail: aszalos.reka@ecolres.hu</p> <p>Web: https://www.researchgate.net/profile/Reka_Aszalos https://ecolres.hu/Aszalos.Reka</p>	
---	---

EDUCATION

2018	Fulbright Scholar, University of Vermont, USA, host: Prof. William S. Keeton
2003	PhD in ecology, Department of Plant Taxonomy and Ecology, Eötvös Loránd University, Budapest. Thesis title: Landscape-level prediction of vegetation patterns
1995	University Diploma in evolutionary biology and ecology, Eötvös Loránd University, Budapest
1995	University Diploma in English Translation, Eötvös Loránd University, Budapest

PROFESSIONAL POSITIONS HELD

Since 2013	Research Fellow at the Centre for Ecological Research, Hungarian Academy of Sciences
2012	Project Manager of international projects at Duna-Ipoly National Park
2009-2011	Research Fellow at the Department of Plant Taxonomy and Ecology of Eötvös Loránd University, Budapest
1995-2004	Assistant Research Fellow at the Centre for Ecological Research, Hungarian Academy of Sciences

COURSES TAUGHT AND OTHER SERVICES PROVIDED TO STUDENTS AND THE HOME INSTITUTION

Guest lecturing on forest ecology, dynamics and management, University of Vermont, Burlington, USA, 2018, 2020

Guest lecturing on forest ecology, dynamics and management, Institute for Biology, University of Veterinary, Budapest, 2010-2016

Plant-taxonomy classes and field excursions as research fellow at the Department of Plant Taxonomy and Ecology of Eötvös Loránd University, Budapest, 2009-2012

Regular yoga classes for the colleagues of the Institute of Ecology and Botany since 2014

Student advising:

Students with completed MS degrees: Gabriella Kovács (2005), Klaudia Kovács (2006) and BSc: Veréb Krisztina (2019)

MEMBERSHIP AND ACTIVITIES IN PROFESSIONAL ASSOCIATIONS

Since 2014; Member of the Hungarian Ecological Society

2015-2017; Member of the EASAC forest group, participation in the publication of EASAC report (2017): Multi-functionality and sustainability in the European Union's forests

WORK EXPERIENCE AND RESEARCH COLLABORATIONS

- 2019-2023 [Bottoms-Up](#) is a COST cooperation project gathering information on European temperate forest multi-taxon biodiversity to inform sustainable forest management
- 2017-2026 Developing conservation management tools for increasing structural and compositional biodiversity in Natura2000 oak forests. [LIFE 4 Oak Forests](#).
- 2018 Fulbright Scholarship, University of Vermont, USA, host: Prof. William S. Keeton. Topic: “Development of innovative, ecologically-based forest management practices in Central Europe with the focus of Hungary.”
- 2017-2019 Ecosystem services of karst protected areas – driving force of local sustainable development ([Eco Karst](#)). [Interreg project](#), EU Danube Transnational Programme.
- 2015-2022 Investigating the effect of different forest management practice on the regeneration and herb layer. Hungarian Scientific Research Fund (OTKA) K111887, K128441, project: “Experimental investigation of the effects of forestry treatments on the forest site, regeneration and biodiversity”,
<https://piliskiserlet.ecolres.hu/en/node/1>
- 2013-2017 Analyzing the deadwood characteristics of managed and abandoned oak forest habitats. Hungarian Scientific Research Fund (OTKA) 105896 project: “Comparative analysis of forest stand structure and herblayer in managed and unmanaged sessile and Turkey oak dominated forests”
- 2012-2017 Mapping the indicators of ecosystem services in the Kiskunság region, Central Hungary. OpenNESS EU FP7 project; “Operationalisation of Natural Capital and Ecosystem Services: From Concepts to real-world Applications”, [www.openness-project.eu](#)
- 2009-2010 Comparing field-based and remotely-sensed data in the mapping of ice disturbance in deciduous forests. Hungarian Scientific Research Fund (OTKA) grant NI. 68218., 2003-2010: “Exploring multivariate biological phenomena at population and community levels”
- 2008 Organizing long-term ecological data series, ontology works. Alter-Net project, EU FP6 Network of Excellence, Project no. GOCE-CT-2003-505298, 2003-2009: „A Long-Term Biodiversity, Ecosystem and Awareness Research Network”, [www.alter-net.info](#)
- 2002-2005 Participation in the Landscape Ecological Vegetation Mapping in Hungary (MÉTA). MÉTA project: NKFP-3B/0008/2002, „Surveying and comparative analysis of Hungary's natural vegetation heritage and its comparative evaluation of Hungary”, [www.novenyzetiterkep.hu/english](#)
- 2001- 2004 Member of the “Termerd” team, responsible for developing the method of assessing forest naturalness in Hungary. TERMERD project, 2001-2004: „Assessing forest naturalness in Hungary”,
<http://ramet.elte.hu/~ramet/project/termerd/indexAngol.html>
- 2001-2004 Research in Hungarian forest reserves - detecting forest developmental stages on aerial photos, investigation of tree stand structure in Vár-hegy (oak dominated) reserve, participation in developing the tree strand structure survey method of Hungarian forest reserves. Several grants: TvH 503/F 2001, K-36-02-00189, 2002-2003, H-36-03-00029, 2003-2004, [www.erdorezervatum.hu/en](#)
- 2001-2004 Study of gap characteristics in the Néra Forest Reserve (Romania) using satellite image analysis, and investigating natural disturbances (ice and wind) in the forests of Börzsöny Mts. NATMAN project, EU5 QLRT1-CT99-1349, 2000-2004: “Nature-

	based Management of beech in Europe - a multifunctional approach to forestry", http://cordis.europa.eu/project/rcn/52801_en.html
1998, 1999	Scholarships, University of Toronto, Canada, host: Prof. Ferenc Csillag Topic: "Predicting vegetation patterns with GIS tools"
1994-2004	Modelling the vegetation pattern with background variables (loess meadows; distribution of a Primula species; forest habitats; ice and wind forest disturbances) – M.Sc. and Ph.D. thesis topic. Grants: Hungarian Scientific Research Fund (OTKA) T452043, 2003-2004, and OTKA F022320, 1997-1998
